Tue, 22 May 2018 19:20:00 GMT - The Subaru EJ engine is a series of four-stroke automotive engines manufactured by Subaru. They were introduced in 1989, intended to succeed the previous Subaru EA engine. The EJ series is the mainstay of Subaru's engine line, with all engines of this series being 16-valve horizontal flat-fours, with configurations available for single, or double-overhead camshaft arrangements (SOHC or DOHC).

Fri, 25 May 2018 15:56:00 GMT - FC-HAKO is designed to work with official Apexi and third party software with the help of baud-rate detection implemented in hardware. This allows flexibility to use software that works best by the user, so you are not locked in to specific software. Also, FC-HAKO supports analog inputs with software that uses it (see compatibility guide). So if you need to perform logging with external analog ...

Wed, 23 May 2018 16:49:00 GMT - Subaru uses a four or five character code to identify all of their engines.. The first letter is always E standing for engine (before the introduction of FB engine series); The second letter is the engine's family. Next come two digits indicating the engine's displacement (or revision before 1989)
