Wed, 13 Jun 2018 18:18:00 GMT - A water landing is, in the broadest sense, a landing on a body of water. Some aircraft such as floatplanes land on water as a matter of course.. The phrase "water landing" is also used as a euphemism for crash-landing into water an aircraft not designed for the purpose, an event formally termed ditching.

## **Water landing - Wikipedia -**

- Major disasters September 11 terrorist attacks. 2,996: The deadliest aviation-related disaster of any kind, considering fatalities on both the aircraft and the ground, was the destruction of the World Trade Center in New York City on September 11, 2001.
