Tue, 19 Jun 2018 06:16:00 GMT - This article discusses how rocks are formed. There are also articles on physical rock formations, rock layerings (), and the formal naming of geologic formations.. The three main ways are formed:. Sedimentary rocks are formed through the gradual accumulation of sediments: for example, sand on a beach or mud on a river bed.As the sediments are buried they get compacted as more and more ...
